Awning Tents - General Instructions

BEFORE THE INSTALLATION

- The installation instructions are delivered with the tent. Please read them carefully.
You can also have a look at our installation videos on www.thule.com
- Make sure alle parts are included and check if the delivered tent matches the type, length and mounting height of your awning
- Make sure the vehicle is levelled
- Check if the connections to the vehicle are sufficiently clean. Sand, dust or dirt could cause damage to your vehicle. If you stay for a long period, clean the tent a few times. Apply foil on the vehicle to prevent the connections from scratching the wall
- Check if the channels are clean
- When attaching the positioning pieces in the main housing of the awning, respect the following rules:
 - The surface has to be dry and clean: no dust, no grease !
 - Press well ! Please wait 72 hours before usage !
- To avoid stains, check if there are no trees above the tent that can deposit resin

INSTALLATION

- Open the awning maximum 1 meter before lowering the support legs
- For an easy setup, install the awning tent with 2 people
- Before installing the pegs and pins, close all zippers
- When using pegs and pins, always use a 45° angle when inserting into the ground (see drawing)
- Use pegs and pins depending on the type of soil
- Hammer the peg into the ground before attaching the elastic in order to avoid damaging the elastic

STORAGE

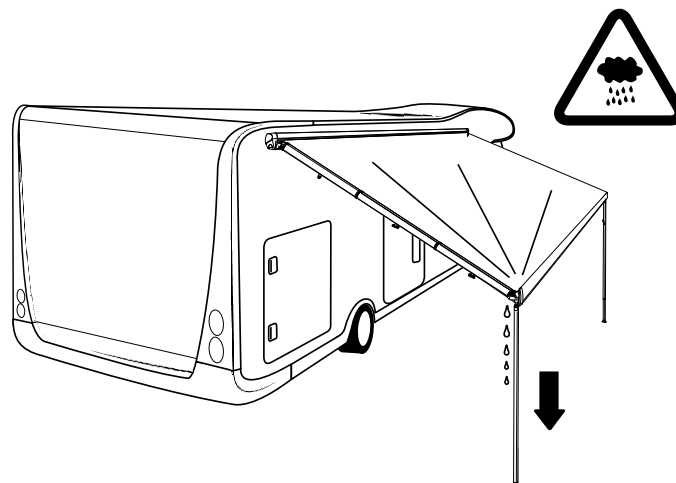

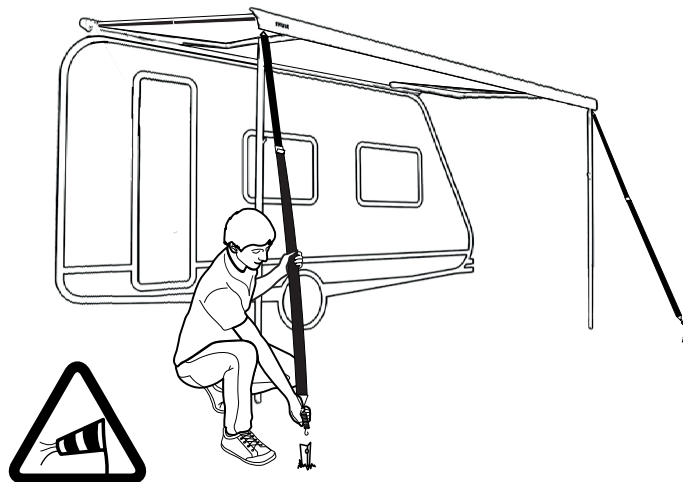

- Make sure not to drag the tent over the ground
- Ensure that there are no hard objects on the windows of the tent during folding, to prevent impressions on them
- Make sure the tent is clean and dry, when being stored for a longer period
- Minimize folding the windows when storing

Awning Tents - Maintenance

- Clean the tent and let dry thoroughly before storage
- Use only water or a dry brush to clean the tent
- Use the Thule PVC Cleaner to clean the PVC fabric of the tent
- Condensation inside the tent is normal. Ventilate the tent adequately

Awning Tents - Important Safety Instructions

- In case of rain, put one awning support leg lower so the water can easily drain off
- When wind reaches 6 Bft. store the tent and close the awning
- Don't place heat sources near the walls or the roof
- Avoid covering the refrigerator grill with the tent
- Use a tension rafter on the awning before tightening the tent completely
- Use a strap kit on the awning after tightening the tent completely

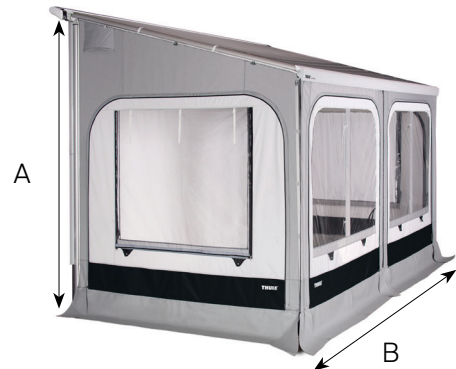

Thule Panorama

INFO

- Length (B) 3.00 m - 6.00 m
- Mounting height (A) 2.30 m - 2.74 m
- Colour Black, silver, white and transparent screen
- Available for Thule Omnistor awnings:
 - 5200, 8000, 9200, 6300, 5003, 6200, 6900
 - 5002*, 5500*, 5800*, 6002, 6802, 6502
 - *combined with a transformation kit: ref. 309623
- Only suitable for vehicles with straight walls
- Special model for Thule Omnistor 6300/6200 on Fiat Ducato H2: mounting height 2.30 m - 2.50 m
- Special model for TO 5200 awning on Ducato / Jumper / Boxer / Movano after 2022 H2 van with lift roof
- Net weight:
 - 3.00 m Medium: 29,5 kg
 - 6.00 m X-Large: 35,5 kg

A = distance between bottom of awning's cassette and ground
B = tent length

FEATURES

- Awning tent of high quality material in a timeless design:
 - Special tent fabric: 100% polyester "Airtex"
 - One colour combination fits the various Thule awning fabric finishes
- Easy and user-friendly installation:
 - Each panel has an integrated left and right door
 - Large panoramic windows can be completely removed
 - Side panels are equipped with mosquito mesh which can be closed with transparent windows
 - Permanent aeration on both sides
 - Fully modular system
- High sturdiness and extremely high stability:
 - Clamping profiles to mount the side panels and connect them with the awning fabric for perfect roof sealing
 - Optimal closing due to zipper connecting the front and side panels of the tent
 - A double rubber flap attached to the mast profile ensures full sealing with the vehicle wall
 - A diagonal support between the mast and the clamping profile provides extra sturdiness
- Content:
 - Tent + mounting profiles + connection pieces to the awning
 - Windslip: prevents the wind from entering through the gap below the vehicle
 - Pegs, pins and elastics
 - 1 window tube to open the window (extra tubes can be ordered - 1500600119)
 - Two luxury storage bags from polyester to store the mounting profiles, the tent, pegs, pins, elastics, ...
 - 1 large bag to store the tent: 20 x 30 x 120 cm
 - 1 small bag to store the profiles: 20 x 20 x 130 cm

 - for Thule Sidehill
- Net weight:
 - 3.00 m Medium: 27 kg
 - 6.00 m X-Large: 33.5 kg

A = distance between bottom of awning's cassette and ground
B = tent length

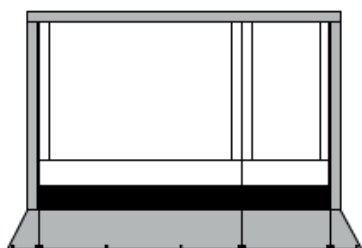

FEATURES

- Awning tent with a high quality canopy in a timeless design:
 - High quality welded PVC fabric for optimal wind- and watertightness
 - Side panels are equipped with mosquito mesh which can be closed with external transparent blinds
- Easy and user-friendly installation:
 - The side panels are mounted with clamping profiles and the front panel slides into the awning's lead rail
 - Large windows bring in a maximum of light and create a feeling of spaciousness
 - Front panels starting from 3.50 m length have a door opening on both sides and can also be rolled up
 - Front panel can be rolled up completely. The windows in the front cannot be opened
 - Integrated rope attached to the upper side of the front panel to add additional accessories (for example to use a Thule Sun Blocker G2 Front panel)
 - Permanent aeration on both sides
 - Windslip: prevents the wind from entering through the gap below the vehicle
- High sturdiness and extremely high stability:
 - Clamping profiles to mount the side panels and connect them with the awning fabric for perfect roof sealing
 - Optimal closing due to double-shaped profiles (C-profiles) connecting the front and side panels of the tent
 - A double rubber flap attached to the mast profile ensures full sealing with the vehicle wall
 - A diagonal support between the mast and clamping profile provides extra sturdiness
- NOTE: Front and side panels need to be ordered separately
- Content:
 - Side panels: left and right side + mounting profiles + connection pieces to the awning + 2 luxury bags made from polyester fabric to store the mounting profiles, the tent, pegs, pins and elastics, ...
 - Front panel: the complete front panel + pegs and pins + connection profiles (double C-profiles) + windslip + manual

 - Fits caravans with a roof-mounted awning: tent slides in the original caravan rail
 - Fits a Ducato H2 van, only with a TO 6300/6200 awning: special model in combination with the optional rail: Thule Awning Fixation Kit TO 6300/6200/9200 - 307050
 - Fits motorhomes with a TO 6300/6200/9200 roof-mounted awning in combination with the optional Thule Awning Fixation Kit TO 6300/6200/9200 - 307050
 - On RV's with all wall-mounted awnings in an optional rail: Thule Universal Tent Fixation Kit - 307205/307206, or for Thule Omnistor 5200 with the Thule Tent LED Mounting Rail TO 5200

- Modularity:
 - Front panel with integrated left and right door opening
 - All panels can be completely removed
 - Large windows
 - Integrated curtains which can be closed with a zipper
 - Side windows are equipped with mosquito mesh and can be closed with a transparent window
 - Double ceiling created by suspending the tent below the awning fabric ensures a better ventilation and insulation
 - Two permanent ventilation openings allow a perfect air circulation when the tent is closed
 - Hook at the centre of the roof to attach a lamp or other accessories - can only be used with a rafter
 - The front canopy is installed with flexible arch tubes to provide additional shade
- Content:
 - Complete tent with tent poles for the canopy + windslip and wheelcover + connection pieces to the awning + pegs, pins and elastics + manual
 - Storage bag: 35 x 35 x 70 cm
